REMARKS.

Steady progress has been made in all our schools during the past year. There has been no change of teachers except in District No. 6, where we found it necessary to change every term; although this was a great disadvantage in some ways, good work has been done.

The increased interest shown in our schools by both parents and friends is gratifying to us as well as encouraging to the pupils, the school entertained over twenty-five per cent more visitors than during the previous year.

In regard to text books, new arithmetics, readers, and histories have been provided during the past year and it will be necessary to have a few more readers as well as spelling books for the coming year, the latter are particularly bad and new ones should be placed in each school.

We found it necessary to purchase new stoves for Districts Nos. 1 and 2, next year it will be necessary to have a new one at District No. 6, the stove in that District is old and full of holes, which causes so much draft that an additional amount of fuel has been absolutely necessary; this stove burned out three cords of wood during the winter.

Although we have overrun the appropriation for schools a little this year, it will be remembered that although the town only raised eight hundred dollars, and the receipts from the State were considerably less than usual, we have had more weeks of school than for a number of years.

The following appropriations will be needed the coming year: $1,000 for shcools, $300 for tuition, $100 for text books, $75 for repairs.

In conclusion we wish to thank you for your interest and kind co-operation during the past year.

CHARLES L. DUNN,
Superintendent of Schools.

ALFRED N. TITCOMB,
WILLARD E. BASTON,
Committee.
